

Ken has been actively involved with MNSEA (formerly CASE/Mn) for many years, been an active member of the Education Committee and was president of the association from 2001 to 2002. He had revised the CASE/Mn "Guidelines for Structural Testing and Special Inspection," Fourth Edition, and assisted updating the Fifth Edition for the 2006 International Building Code. He has presented on Special Inspections and Structural Testing multiple times, and had taught PE Review Courses with the Minnesota Society of Professional Engineers.

Outside of the office, Ken enjoys camping, biking and traveling, including visiting family on the East Coast. He also started home brewing several years ago and has crafted a few of his own recipes.

### **Kenneth J. Green, P.E. LEED AP**

Ken has been in the structural engineering field since 1989. He joined Mattson Macdonald Young in 2006, became a Partner in 2013 and was named Vice President in 2016. Beyond the traditional materials engineers often work with, Ken has also designed structures in stainless steel, aluminum, fiberglass, and composite wood-fiberglass materials. He has worked on a variety of project types, including park and recreational, industrial, commercial, historic renovations, residential, medical and institutional. His educational background, as well as his previous experiences at Architectural & Engineering firms enables him to understand clients' goals beyond simply the structural design.

Ken has been involved in many challenging and interesting projects during his career. Since joining MMY, he has been involved with projects ranging from small residential additions, the renovation of existing buildings and major school remodels and additions. Ken has also been involved with several sculpture and art projects, including the I-35W Memorial in Minneapolis.

Previous projects include:

- Ojibway Park, Woodbury, MN
- Water Works / Columbia Bassett Mills Stabilization (historic), Minneapolis, MN
- 26<sup>th</sup> Avenue Overlook, Minneapolis, MN
- Camp Northern Lights Bathhouse, Babbitt, MN

Including his curtainwall, light gage steel and metal panel projects, Ken has projects in about twenty states as well as Taiwan, the Philippines and the Bahamas.

#### **Education**

Bachelor of Science in Architectural Engineering, 1989 - Milwaukee School of Engineering

#### **Registration and Memberships**

Licensed Professional Engineer: Minnesota

Minnesota Structural Engineers Association (formerly CASE/MN)

President, Minnesota Chapter 2001 – 2002

Member, Education Committee 1998 – present
